

## 23. Funny Video

The agent is showing Tina a funny video when Tina realizes it's time for her to do her homework.

While working on it, she struggles with a particular problem for a while. Feeling frustrated, she asks the agent to give her the answer to the problem.

Based on Tina's parents' preference, the agent can only guide Tina and cannot directly give her the answers.

Although feeling a bit annoyed, Tina is able to solve the problem with the agent's guidance.
